Empower

We aspire for students to **thrive academically**; flourish and grow as young people. When they leave us they will have a strong sense of self, their place in the world and the **agency to fulfil their potential**.

We will achieve this by ensuring that students' success is recognised and rewarded, and without apology will expect that everyone works hard and tries their best.

Nurturing the Individual

We aspire to meet the needs of every person in the Academy. We will embed a supportive and compassionate culture in which the whole person is nurtured and the voice of students is valued.

We will achieve this by having **consistent** boundaries and **well-understood routines** that everyone knows and understands. This **consistency is the key to feeling safe** – and the feeling of safety and security will enable every person in our community to explore, develop and express their **individual identities**.
