### *JCA Routines – Exit from School and Restorative Conversations*

---

At the end of our school day, we wish students a good afternoon and look forward to seeing them on their next school day; this routine is well established and the majority of students move home quickly and safely. Some students attend restorative conversations at the end of the school day (between 15:00 and 15:15) in order to acknowledge what did not go well that day. It is expected that students:

- Walk with their tutors to the SLR at the end of the day (3pm)

- Sit in a chair in silence whilst their tutor signs them in, waiting for the appropriate member of staff to arrive.
- They will actively participate in reviewing the incident with their teacher (supported by the tutor or the pastoral team if need be) and agree how it will be different next time.
- They wait to be dismissed at 15:15.

Please support your child/children in attending these conversations and understanding the importance of being able to discuss disagreements and avoid repeating the same mistakes

### *Junior Maths Challenge*

---

Well done to the 123 students from Year 7 and 8 who competed in the Junior Maths Challenge at the end of April. This national, prestigious competition is organised by the United Kingdom Maths Trust whose aim is to encourage **mathematical reasoning, precision of thought**, and **fluency** by solving interesting problems.

Congratulations to the 46 students who received a bronze, silver or gold award from this competition. In particular to, the Samuel Spencer, Endri Ahmeti, Poppy Kendell and Valerie Huang who all received gold certificates.

### Survey Reminder

---

**The deadline for the survey is the 27<sup>th</sup> May, so please do help your child to complete this before then**

The South Gloucestershire Council have launched a mini survey aimed at capturing the wellbeing of children and young people.

This survey is a powerful vehicle for children and young people to give their voices on some of their life experiences and will provide invaluable insight for the public health team, the wider council, and its partners to better inform and set priority areas for improving health and wellbeing in our communities and to ensure the allocation of resources is also influenced by these insights

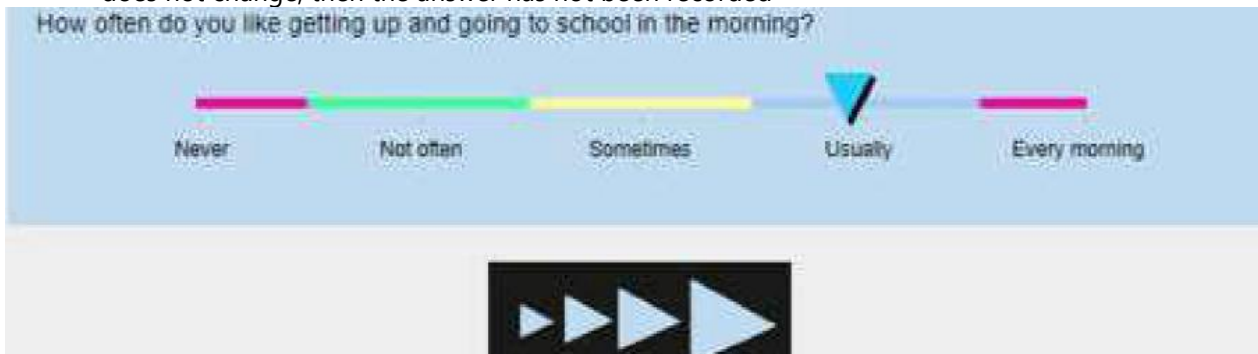

Please see the below link and login to take part in the survey

Survey Link: <https://sgl2022sops.fabsurveys.co.uk/>

User ID: 8036906

Password: 5et2g9?x8

- The survey is suitable for PCs, laptops and iPads / tablets
- It will also work on mobile phones, but is easier to complete on larger screens
- The characters in the password are case sensitive
- The survey should take approximately 10 – 15 minutes to complete
- It is essential to enter the correct year group when logging into the survey
- At the bottom of each page there is a forward arrow to press to go on through the survey
- Please do not go backwards as data may be wiped and you will have to complete that page again. If you do need to go backwards, please use the backward button and not the browser back button
- Sliding scales in the survey – you will need to click the cursor (so that the colour changes) even if the chosen answer is in the default position (i.e. the middle). If this is not clicked, and the colour does not change, then the answer has not been recorded

- No identifying information is collected and the data will be averaged, so this is anonymous
- Safari is the recommended browser to use for this, as in Chrome the back button may log users out
