

Our Ref MoD/MCo

8th July 2024

IMPORTANT COMMUNICATION

Dear parents/carers

COVID-19, Measles, Chickenpox and Shingles.

Please may we ask for your co-operation in an important matter.

One of our pupils is receiving medical treatment at the Bristol Children's Hospital which puts them at risk if they are exposed to COVID-19, Measles, Mumps, Chickenpox or Shingles. We also need to be made aware if your child has diarrhoea and vomiting, flu like symptoms, slapped cheek or any other illness.

Please let us know immediately if your child is suspected of having measles.

Our pupil is also at risk from chickenpox and would require a medical review within three days of contact. If your child is suspected of having chickenpox, you should let us know immediately.

It is also important that you let us know if there is shingles in your household.

Your child is not at any risk whatsoever from this situation. However, the health and well-being of our pupil who is at risk, does depend on the cooperation of all other parents/carers and we hope you can help us.

With many thanks.

Kate Willis
Principal
