

Green Jobs are Growing!

You may be aware that the West of England Combined Authority aims to make the region net zero by 2030, 20 years ahead of the UK Government's target. This may require up to 45,000 new green jobs across six priority areas: Nature Recovery, Low Carbon Buildings and Places, Renewable Energy, Climate Resilience, Low Carbon Business and Low Carbon Transport, providing some exciting employment opportunities for young people in the West of England area.

To help find out more about these jobs and the pathways into them, please find a flyer attached featuring 60 green jobs – simply click on a job title to visit the job profile on Careerpivot to find out more about the job and the different pathways into it.

You can also search for green job profiles using the Green Jobs search button on Careerpivot: www.careerpilot.org.uk/job-sectors

You can also find the answers to lots of questions you may have about study and work options for your young person at the Careerpivot Parent Zone: www.careerpilot.org.uk/parent-zone

There are lots of interesting job opportunities involved in the protection of our planet in a range of industry sectors. Find out more about what green jobs are and explore green job profiles at www.careerpilot.org.uk/job-sectors/green-jobs
