

Religion and Philosophy:

We want our philosophers to know and understand key religious beliefs and practices from some of the world religions. We want them to be able to understand and evaluate the impact belief has on people's actions in both their religious practices and interactions with others. They will be able to listen to others, take on differing viewpoints, be able to articulate arguments and form justified conclusions.

	Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
