

TALENT PIPELINE

Tap into your future with Wessex Water

With more than 100 opportunities available to start in 2021, we have a variety of programmes available to help you shape a long-term career with us.

Whether you're seeking your first opportunity having left education, are currently unemployed and claiming Universal Credit, or at university needing an industrial placement to boost your experience, we'd love to hear from you.

Join us in 2021 through any of the programmes below.

TECHNICAL APPRENTICESHIPS

Our Talent on TAP (Technical Apprenticeship Programme) holds a variety of apprenticeship programmes which fall across our operations and engineering and sustainable delivery departments. Talent on TAP allows you to complete one application process to be considered for all of our technical apprenticeships.

KICKSTART

KICKSTART SCHEME

Job placements for 16 to 24-year-olds on Universal Credit that will last for six months. 'Kickstarters' will be required to work 25 hours a week. Opportunities will range from office work to construction and engineering. One application allows you to be considered for a variety of roles.

INDUSTRIAL PLACEMENTS

Our industrial placements offer a useful opportunity for university undergraduates to gain industry experience. These experiences allow you to develop your working knowledge and apply your university theory to real life situations.

GRADUATES

We understand how difficult it can be to find a suitable role after university. To help support you in building a career, we have identified a variety of roles within the business which would be suitable to someone having recently completed their degree.
